

AUTOMATION: PANEL SERVICES

EXPANSEELECTRICAL.COM

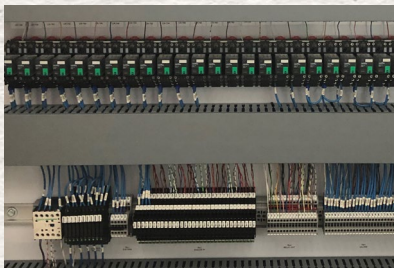

Simplify Panel Customization with Expanse

Expanse's dedicated panel experts have the tools, resources and experience to help customers with panel support across the United States. We excel in custom panel development and are prepared to support our customers in a variety of different areas, including:

- Panel Engineering & Design
- Standard & Custom New Builds
- Upgrades & Enhancements
- Installation
- Commissioning
- Programming
- As-Built Drawings
- Maintenance
- Troubleshooting

Our team has more than 40 years of experience which is reflected in our robust QC process that drives accountability and ensures the reliability and quality of every Expanse panel.

We dispatch experienced technicians for panel service calls out of every Expanse branch location. In addition, we have a dedicated panel shop where we can manufacture to support our customer's needs.

The Expanse Advantage

- Certified UL Control Panel Manufacturer
- Electrical Schematics with Every Order
- Coordinated As-Built Drawings
- Quick Ship Panels
- Service What We Sell
- Strong Manufacturer Relationships

Capabilities
