

CONSULTING SERVICES

EXPANSEELECTRICAL.COM

From Permit to Power with Expanse

Expanse's experience and knowledge of electrical, instrumentation and automation systems enable our team to provide high-level insight and to increase facility operational efficiencies and buildouts. Specifically, our team of consultants can assist with:

- Site and system development
- Utility coordination
- Procurement
- Construction
- Testing
- Startup

Our experts serve as an extension of your in-house team, providing experienced field services or a team of knowledgeable specialists to verify electrical loads, as-builts, specifications and to maximize efficiencies of facilities or planned projects. As consultants, we take a holistic approach to identify potential issues and offer associated solutions.

Benefits of Expanse's Permit to Power Consulting Services

ADDED EXPERTISE

ADDED RESOURCES

THIRD-PARTY VERIFICATIONS

INCREASED EFFICIENCY

The Expanse Advantage

- Turnkey Services
- Lifecycle Support
